ARTICLE REVIEW

1. This article is about _______________________. Before reading the article, answer the following questions:
   a. What do you know about this topic?

   b. What are your current thoughts and/or feelings about it?

   c. How do you think science is involved?

   d. What point or claims do you think this article will make?

   e. Why do you think that? (Be specific!)

2. Read the article through once without making notes or highlights. Simply read it and then answer the following questions:
   a. What are your initial thoughts and feelings about the subject of this article?

   b. Why do you think and feel that? (Be specific!)

3. Read the article through a second time, this time using the following technique:
   a. Underline any part that identifies or discusses the scientific process used in the research.

   b. Circle any part that identifies the author’s point of view or opinions.

   c. Box any part that identifies potential ethical considerations and write a quick two or three word note to help you remember why this concerns you.
